

Low Smoke Generator

The Low Smoke Generator produces a massive amount of low lying fog in a continuous flow. By combining liquid CO2 and a specially formulated fog fluid, a dense white fog is produced on demand.

The LSG is your economical choice for the low fog effect.

Road case dimensions: 47L" x 29W" x 31H"
Power requirements: 120 vac/20 amp
Shipping weight: 245 lbs.
